

## International Exchange

For me this experience is a before and after in my life. Thank you, this opportunity I have been able to meet this beautiful island that I will never forget.

From the first day I felt very welcomed by all the students and teachers. Always attentive and willing to help you, it is something that really impacts me when you arrive. If I had to define this country with a serious word "humility".

About the academic field, having been able to implement classes in English has helped me a lot to improve my level when communicating with others. I have also had the opportunity to continue doing Chinese classes and although the level has been high with effort I have been able to improve the language. Above all I wanted to thank the teachers since they have always cared for us, always showing interest in helping us. At the same time, we can enjoy the facilities provided by the university such as gym, Olympic pool, basketball, volleyball, baseball, etc. It makes going to college an experience. And more if you are a sports lover.

Thanks this experience, I have been able to travel all over the island, such as Kenting, Taina, Taipei, etc. Being able to enjoy the Taiwanese culture and know its secrets. Also, thanks to its proximity I have been able to travel to places like Japan, the Philippines and Vietnam. Sites that, if it had not been for this opportunity, would have never been done before. With all this, I have enjoyed making new friendships that I will take for life. From people Taiwan, Malaysia, Japan, America and also from my land Spain. We have all made a lot of union knowing well, a little more of the world.

All it takes to travel alone to a new adventure has made me enjoy these 6 months as a small child, letting me soak in this great experience of the international Exchange. I hope in the not too distant future to have the opportunity to return to this beautiful country whether for work or leisure.
